

NIPPON**NRIO**
BELIEVE

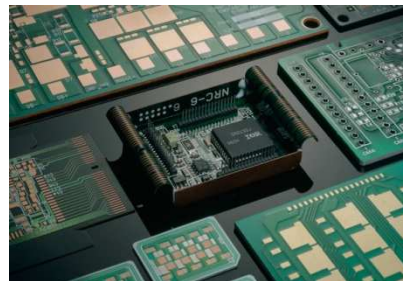

Corporate Profile

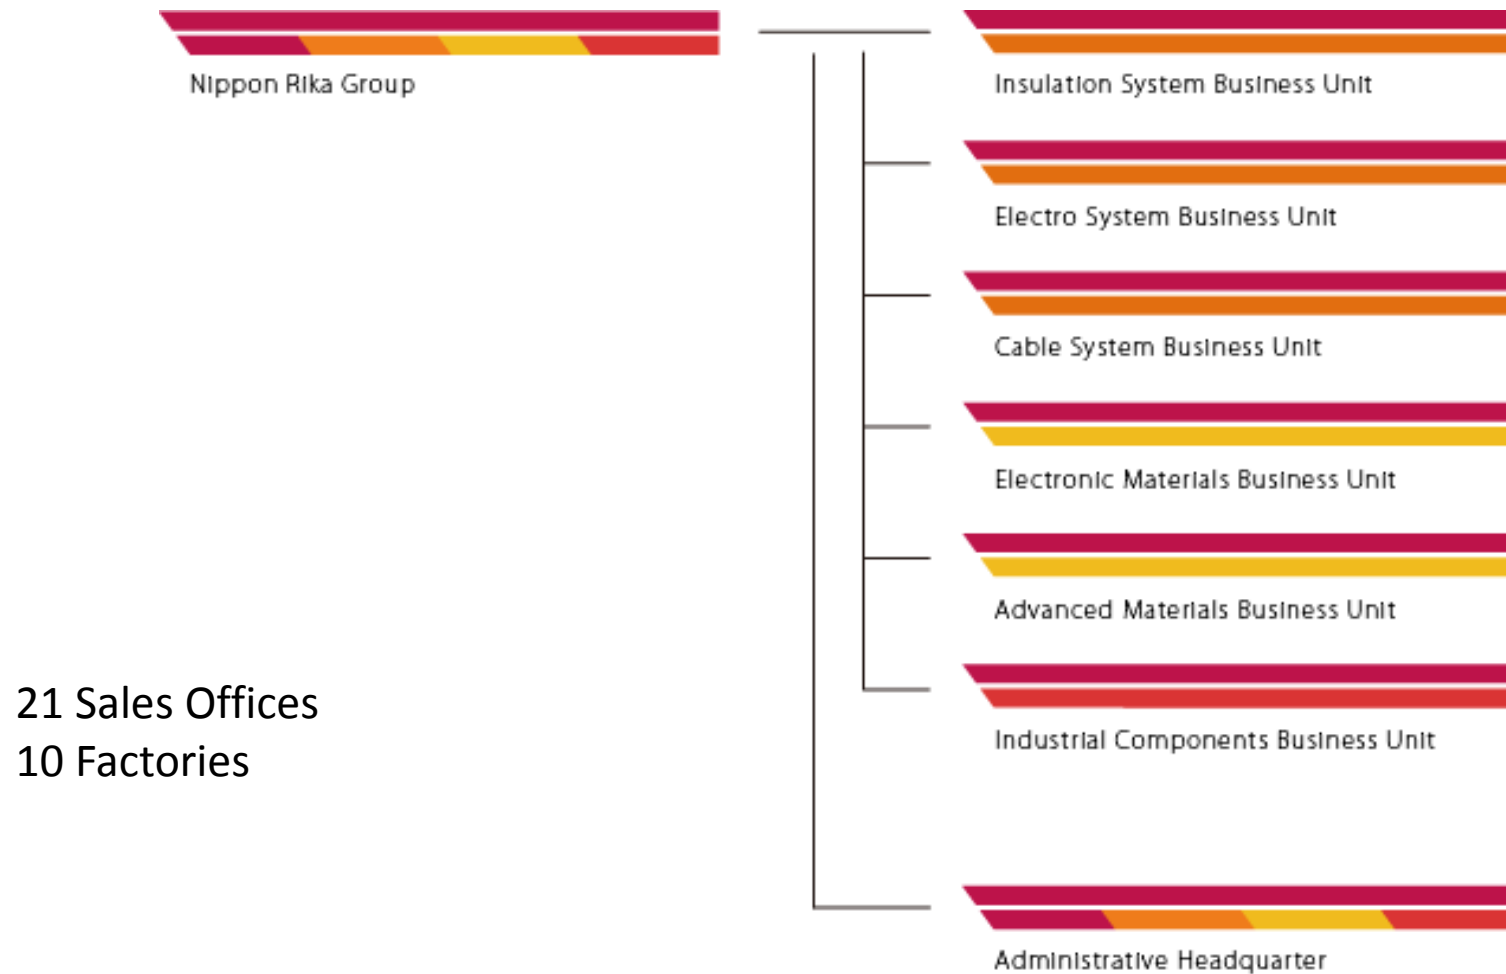

Respecting the people of the world
and the global environment to create new values

The "NRK" group aims to be a global corporate group that creates new values based on the principle of human respect to contribute to the people of the world and the global environment.

Nippon Rika Kogyosho Co., Ltd
was founded in 1914

The Finest Mica Paper in the World

KM :Uncalcined Muscovite Paper

RM :Calcined Muscovite Paper

AM : Uncalcined Phlogopite Paper

KMF : Aramid fibril mixed Uncalcined
Muscovite Paper

RMF : Aramid fibril mixed Calcined
Muscovite Paper

AMF : Aramid fibril mixed Uncalcined
Phlogopite Paper

KMP : Polypropylene pulp mixed
Uncalcined Muscovite Paper

RMG : Glass chop mixed Calcined
Muscovite Paper

NIPPON RIKA KOGYOSHO CO.,LTD.

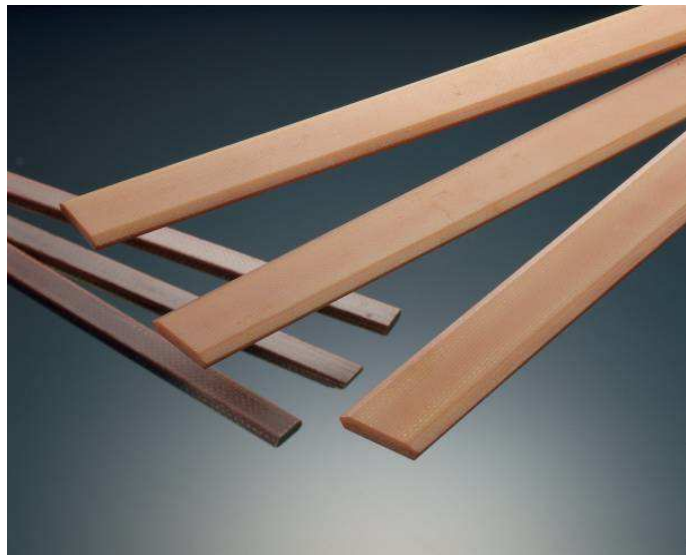

Mica Products

- Mica Tapes for High Voltage Rotating Machineries
 - Binder-less Mica Tapes (RikaPolypro™)
 - High Thermally Conductive Mica Tapes (**SHIRO™/KURO™**)
 - Mica Tapes for Flat Coil Winding System (RikaFibrel™)
 - Super Thin Mica Tape (G4 series) / *Twist-Free* Glass Cloth Backing
 - Extremely High Thermal Resistance Mica Tape (RikaCalfib™)
- Mica Tapes for Fire Proof Cable
- Mica Splitting Tape

NIPPON RIKA KOGYOSHO CO., LTD.

Mica Tubes
Mica Plates

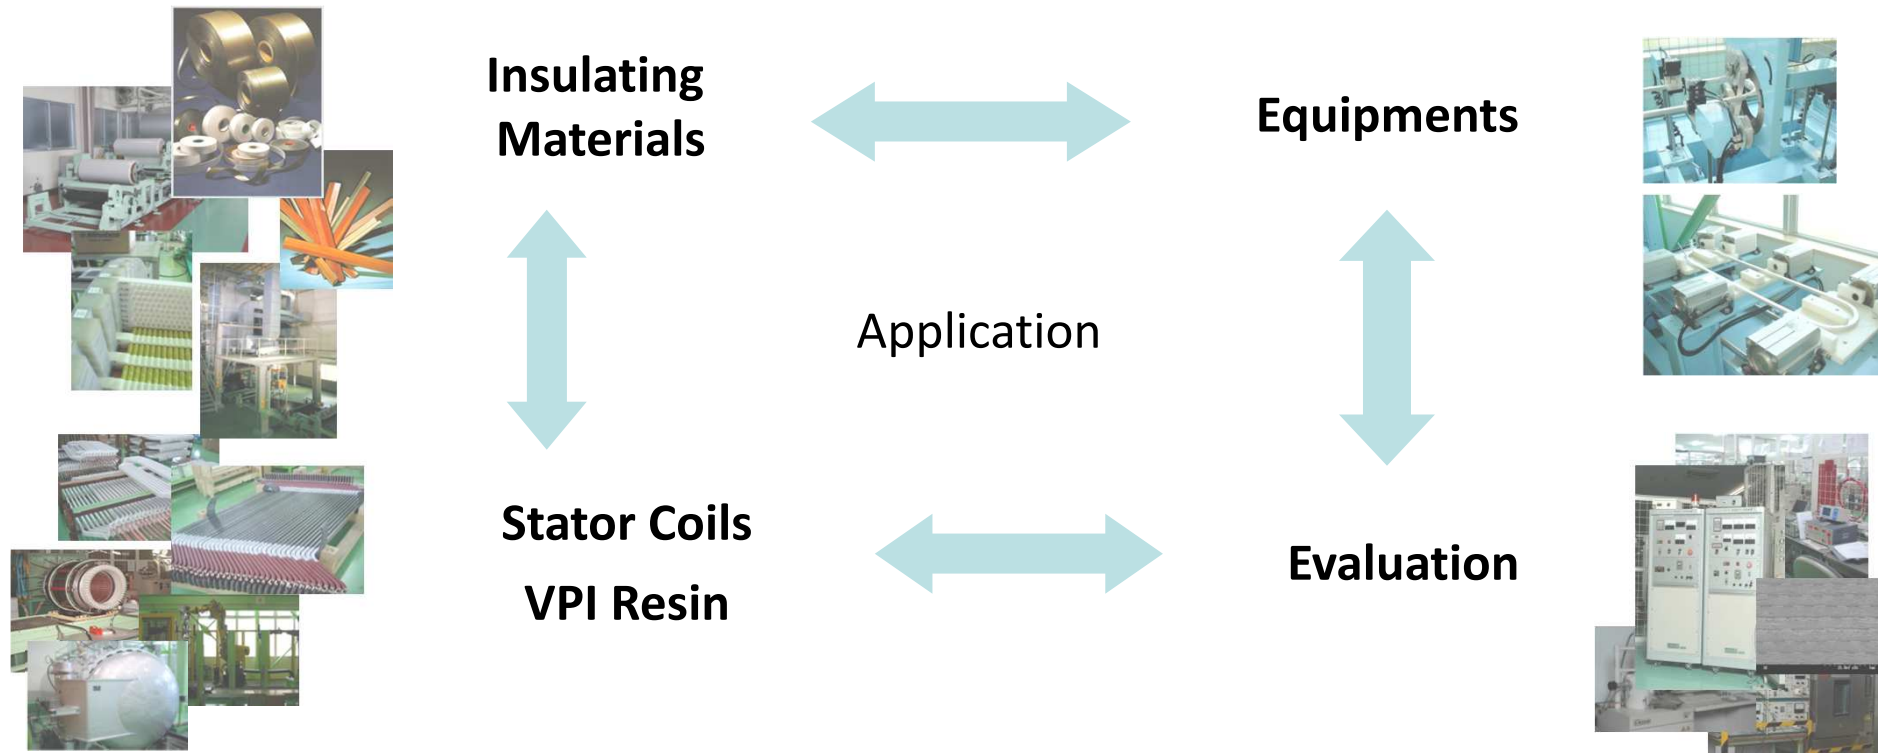

Glass Tape
Sealing Tape
Adhesive Tape

Rika-FINE™ System

Rika-FINE™ System is insulation system for manufacturing stator coils for high voltage rotating machineries.

Since Rika-FINE™ System controls all the process, Nippon Rika Group can provide the high quality insulation system.

Rika-FINE™ System

Rika-FINE™ System is Anhydrite Epoxy VPI Resin for High Voltage Rotating Machineries, which has been supplying to heavy industry fields for more than 20 years.

Rika-FINE™ VPI Resin contains special capsule accelerator (micro sized / temperature reaction) inside the resin, so that high quality insulation property can be delivered to our clients.

Nippon Rika Electro System Business Unit owns coil shop in house, so we ensure the Rika-FINE™ System quality for Motor and Generator

- Room Temperature (35-40C) VPI
- No Rotating Curing Required
- Less Voids in the Insulation Layer

ex) customer “T” in Korea

Locations

Mica Paper Production – Tochigi Works

Mica Tape Lamination – Tochigi Works / Nippon Rika GR (INDIA) Pvt Ltd.

Mica Splitting Tapes – Tochigi Works

Converting – Tochigi Works / Nippon Rika (S) Pte.,Ltd / Iino Factory
/ Gyeongju Works, Nippon Rika Korea Co.,Ltd

Electro
System
Business Unit

Products

- Stator Coils for Induction Motors (New / Repair)
- Stator Coils for Hydro Generators
- Stator Coils for Turbine Generators
- Specially Shaped Coils
- Commutators

Equipments for Diamond Shaped Coils in Japan

- Conductor Wire Insulation Taping Machine
- Loop Winding Machine
- Pre-consolidation Machines
- Spreading Out Machines
- Auto Taping Machines
- Flat Coil System Taping Machine
- Pre-forming Machine

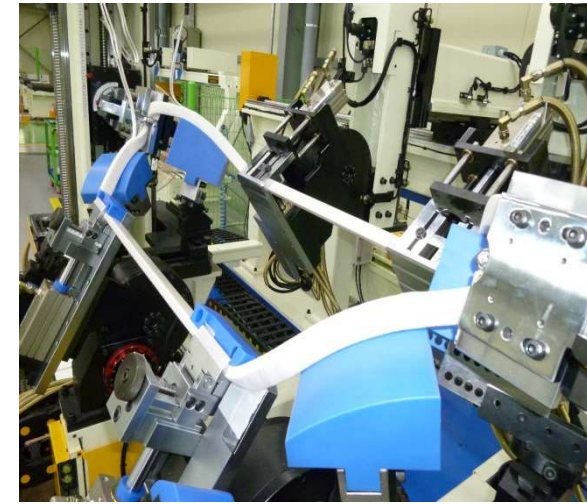

Equipments for Roebel Transposition Coils in Japan

- Conductor Cutting Machine
- Auto Transposition Machine
- Molding Machine
- Forming Machines
- Robot Taping Machine

Equipments for Diamond Shaped Coils in Korea

- Loop Winding Machine
- Pre-consolidation Machines
- Spreading Out Machines
- Auto Taping Machines
- Flat Coil System Taping Machine
- Pre-forming Machine

Equipments for LV Motor Assembling in Vietnam

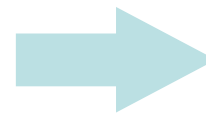

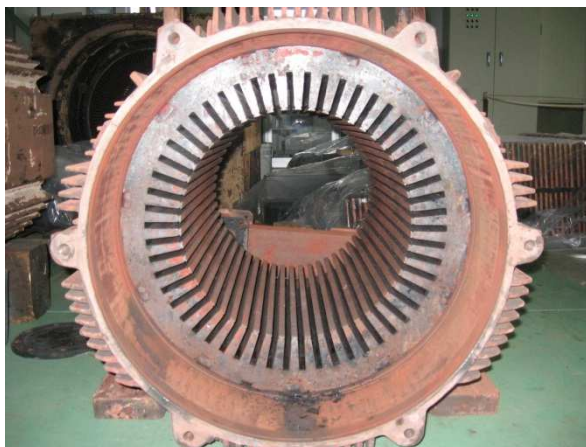

- Winding Coils
- Inserting Coils

NIPPON RIKA KOGYOSHO CO., LTD.

Equipments for Core Cleaning and Rewinding in Japan

- Core Loop Test
- Baking Oven
- Sand Blasting Room
- Coil Removal Section

NIPPO

., LTD.

Vacuum Pressure Impregnation Tank & Curing Oven

- Vertical VPI Tank: 3500 Φ × 3500mm
- Horizontal VPI Tank: 2400 Φ × 6000mm

- Curing Oven: 4000 × 5000 × 4000mm

Evaluation Equipments

- High Voltage Simulator/Oil Bath (150kV)
- High Voltage Simulator (35kV)
- Transient Surge
- Impulse Surge Tester
- High Voltage Auto Schering Bridge
- Partial Discharge Measuring System
- High Resistance Meter

Commutators

■ Commutators (New / Repair)

Steel (500 ϕ x 350L)

Traction Compressor
(250 ϕ x 35L)

Traction
(310 ϕ x 110L)

Traction
(300 ϕ x 120L)

Industrial

- FR-4 PCB
- Flexible PCB
- Silicone Varnishes

Structure of Metal Core PCB

Superior Insulation Layer

We, as insulation technology company, developed high performance insulation layer, so that we provide good insulation layer with high thermal conductivity.

Nippon Rika CCL/MCPCB has been applied to LED lightings, Power Modules, and Automotive Industries.

Locations;

Clad Copper Laminates – Tochigi Works / Taiwan Branch
Metal Core PCB – Shimotsuke Factory

Assembling

Nippon Rika Vietnam Co., Ltd offers “cost effective” solutions for assembling electronic parts upon customer’s requests including automotive applications.

Locations;

Ho Chi Minh City Works

NIPPON RIKA KOGYOSHO CO., LTD.

Composite
Materials
Business Unit

NIPPON RIKA KOGYOSHO CO., LTD.

Products

- Epoxy Prepregs (Glass Cloth / Nomex® / Polyester Fleece)
- Polyester Prepregs (Glass Cloth / Polyester Fleece)
- Polyimide Prepregs (Glass Cloth)

- Adhesive Coating Epoxy Sheets for Rotor Insulation
- Epoxy Glass Laminates (G-10 /G-11)
- Polyimide Glass Laminates
- Air-Guide / Air Baffles / Deflectors for Motor & Generator (FRP Composites)

- Insulation Caps (Epoxy / Polyester / Mica)

Locations

Vertical Impregnation Tower – Tochigi Works

Pressing / Molding Machine – Tochigi Works

Machining Equipment – Adachi Engineering Co.,Ltd

FRP Composites – Nippon Rika Vietnam Co.,Ltd

NIPPON RIKA KOGYOSHO CO.,LTD.

Industrial Components Business Unit

NIPPONRIKA Group has been developing new technologies which any other companies have ever invented.

Products - Distribution

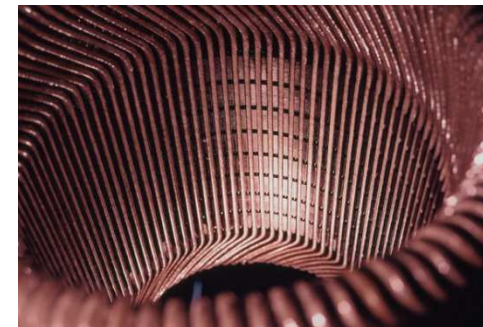

Silicone Products

- Adhesive Sealant
- Silicone Resins
- Hardcoats
- Surface Modifiers
- Organommodified Fluids

Insulation Resins

- Epoxy Resins
- Insulation Varnishes (Solvent / Non Solvent)
- Varnishes for Magnet Wire
- Casting Resins

Products - Distribution

UST System

- Rainwater Storage System
- Environmentally Harmless

NIPPONRIKA

Designing Energy Drive

Aiming for Next Generation.
We are now just at the beginning.
